

39 SERIES

PLASTIMATT

Product description

One component ink for screen-printing on PVC autoadhesives, posters and in general vinylic materials.

39 SERIES leave in all these materials a thin, highly flexible and well-adhered film, with high chemical resistance and that with the selection of the appropriate references it can be used for exterior use.

Its no residual odour is also noticeable.

Recommended applications:

Autoadhesives, vinylic materials and posters.

Finish:

matt.

Presentation:

Only viscosity needs to be adjusted, depending on the job, factory temperature and impression speed.

Diluents:

D-200 as fast to normal and **D-696** as slow diluent. Its appropriate mixture gives a good behaviour on the screen and short drying periods, in the order of 5 to 20 minutes when dried to the air, depending on the material and the job, and in seconds when it is dried through a tunnel.

Screens:

Emulsion with **ARGAZOL-E** (easy decoating) or **ARGAZOL-UV** (high performance and definition) with meshes from 90 to 130 meshes/cm.

Security:

Carefully read the label directions and the tab Security of this ink.
