

## 42 SERIES | TYWEPRINT

### Product description

One component ink, specially designed to print on Tywek® and some other special papers.

The dried film of 42 SERIES is highly flexible, results in good adhesion and there are no reprint or absorption problems.

#### Recommended applications:

Tywek® and other special papers.

#### Finish:

Matt.

#### Presentation:

Only viscosity needs to be adjusted, depending on the job, factory temperature and impression speed.

#### Diluents:

D-200 as fast to normal and D-400 as normal to slow. Its adequate mixture gives a good behaviour in the screen. It dries in 20 minutes when exposed to the air, depending on the conditions of the factory; one pass through the oven solves the problem.

#### Screens:

Emulsion with ARGAZOL-E (easy decoating) or ARGAZOL-UV (high performance and definition) with meshes from 90 to 130 meshes/cm.

#### Security:

Carefully read the label directions and the tab Security of this ink.

TYWEK® is a trade mark registered by DUPONT.
