

SERIE 46

POSTERMATT

Product description

One component ink, specially designed to print on papers and cardboards for advertising purposes.

The dried film of 46 SERIES is flexible enough to not to give the traditional curling problems usually found with other inks. These inks give very good adhesion on these substrates and no reprint or absorption problems. Its stability on the screen is outstanding.

Recommended applications:

Papers, cardboards and some sort of special papers.

Finish:

Matt

Presentation:

Only viscosity needs to be adjusted, depending on the job, factory temperature and impression speed.

Diluents:

D-300 as normal solvent. It gives a good behaviour in the screen. It dries in 10 minutes when exposed to the air, depending on the conditions of the factory; with oven it usually dries in 5-8 seconds.

Screens:

Emulsion with ARGAZOL-E (easy decoating) or ARGAZOL-UV (high performance and definition) with meshes from 90 to 130 meshes/cm.

Security:

Carefully read the label directions and the tab security of this ink.

Colores

Halftones 002;052;006;009.
Any other colour can be supplied on demand.
