

663 SERIES

WATER BASED PIGMENTED INKS FOR DTG PRINTING

Product Description

This ink set is designed with state of the art pigments to offer bright, vivid and saturated colours offering one of the best colour gamuts available in the market. These inks are specifically designed to be used on machines equipped with **Epson® printheads** and are reliable with minimum head maintenance. The inks have excellent colour gamut, very high opacity white and superior washing resistance.

We offer one of the best pricing in the industry for our customers to maximize their profits achieving at least the same performance and reliability than with the original inks.
