## UV PIGMENT INK

### Product Description

This ink set is designed with state of the art pigment set to offer bright and vivid colors and offers one of the best outdoor life of any other U.V. curable inks currently available in the marketplace.

These inks were specifically designed for VUTEK<sup>®</sup> GS printers and are reliable with minimum head maintenance. The inks print on most of the plastics, including acrylics, vinyls, treated metals and treated glass. The inks have good adhesion and good compromise between scuff, scratch resistance and flexibility, excellent chemical resistance and are designed for long term outdoor signage application. These inks are typically used for outdoor signage, banners and trade show graphics, as well as many other industrial applications...

We offer one of the best pricing in the industry for our customers to maximize their profits achieving at least the same performance and reliability than with the original inks.

**Ink Type:** U.V. Curable Pigmented inks
