

904 SERIES

## U.V. CURABLE INKS

### Product Description

This ink set is designed with state of the art pigment set to offer bright and vivid colors and offers one of the best outdoor life of any other U.V. curable inks currently available in the marketplace. These inks were specifically designed for Epson printheads with LED curing systems, being a reliable solution with minimum head maintenance. The inks print on most of the plastics, including acrylics, vinyls, treated metals and treated glass. The inks have excellent adhesion, high scuff and scratch resistance, excellent chemical resistance and are designed for long term outdoor signage application. This ink set is specifically designed to be used as a plug and play solution for Roland UV printers with EUV4 ink.

We offer one of the best pricing in the industry for our customers to maximize their profits achieving at least the same performance and reliability than with the original inks

Ink Type: U.V. Curable Pigmented inks
