## UV matt screen varnish

### PRODUCT DESCRIPTION

U.V. matt screen printing varnish specially designed to be printed on corrugated polypropylene sheets, such as correx. The varnish, once it has been cured leaves a flexible film with excellent adhesion on polypropylene and can also be used in many other plastics. The film is very flexible, allowing creasing and folding. It is an excellent option to protect full color prints on polypropylene.

### Recommended applications:

Corrugated polypropylene.

### Finish:

Matt.

### Presentation:

It is ready for use with screens of 150-180 meshes/cm at 20°C.

### Drying:

Under 80 W U.V. lamp, it superates the talc trial at speeds of 30-35 m/min.

### Emulsions and meshes:

Emulsion with ARGAZOL-UV with meshes from 150 to 165 meshes/cm.
