MATT HIGH BUILD UV SCREEN VARNISH

PRODUCT DESCRIPTION

High build up (braille) matt U.V. curing varnish to be applied by screen printing to leave heavy deposits of varnish on labelstock materials. The formed film, once it has been cured, has excellent flexibility which permits die cutting afterwards. The varnish is specially designed to be worked on fast screen printing machines, which allows working at faster speeds with perfect machine stability.

Recommended applications:

labelstock, such as papers, foldings and films, including PE, PP, PET...

Finish:

Matt.

Presentation:

It is ready for use with screens of 43 meshes/cm at 20°C.

Drying:

Under 80 W U.V. lamp, it superates the talc trial at speeds of 40-45 m/min. In cylindrical machines, it can be printed up to 4000 sheets per hour.

Emulsions and meshes:

Emulsion with ARGAZOL HIGH SOLIDS 11.705 with meshes from 21 to 43 meshes/cm. It is recommended to apply a 4+2 deposit to achieve best deposits.
