Matt UV screen varnish

PRODUCT DESCRIPTION

U.V. curing varnish to be applied by screen printing specially designed to print on papers, cards and cardboard. High adhesion on difficult materials such as PE or PP laminates and offset inks has been obtained. The formed film, once it has been cured has a high level of flexibility which permits die cutting afterwards.

Recommended applications:

Papers, cards and cardboard, laminated or not, offset inks.

Finish:

Matt. There is a gloss version.

Presentation:

It is ready for use with screens of 150-180 meshes/cm at 20°C.

Drying:

Under 80 W U.V. lamp, it superates the talc trial at speeds of 40-50 m/min.

Emulsions and meshes:

Emulsion with ARGAZOL-UV with meshes from 150 to 165 meshes/cm.

Handling:

Make sure the containers are well shaken before production in order to avoid any settling.
