

99.00.05225

VARNISH TOUCH

PRODUCT DESCRIPTION

U.V. curing varnish to be applied by screen printing specially designed to produce a unique touch feeling on papers, foldings, labelstock... The formed film, once it has been cured, has excellent flexibility which permits die cutting afterwards. This product can achieve different effects by printing with different meshes, giving a unique tactile finish with meshes around 100 mesh/cm and very soft finishes when printed with 21 mesh/cm.

99.00.05225 varnish is well known by its unique finish, excellent flexibility and good curing speed.

Recommended applications:

Papers, cards and cardboard, laminated or not, PVC films and banners, labelstock...

Finish:

Satin.

Presentation:

It is ready for use with screens of 21-100 meshes/cm at 20°C.

Drying:

Under 80 W U.V. lamp, it superates the talc trial at speeds of 30-35 m/min. In cylindrical machines, it can be printed up to 3500 sheets per hour.

Emulsions and meshes:

Emulsion with **ARGAZOL HIGH SOLIDS 11.705** with meshes from 21 to 100 meshes/cm. It is recommended to apply 4+2 coats to achieve best effects when an opened mesh is used.
