

611 SERIES

## WATER BASED PIGMENTED INKS

### Product Description

This ink set is designed with state of the art pigments to offer bright, vivid and saturated colours in order to offer the same colour gamut than the OEM ink. These inks are specifically designed to be used on machines equipped with **Epson® piezo electric printheads** and are reliable with minimum head maintenance, therefore, increasing the printhead life of the machine. The inks work with the same ICC profile, have excellent resistance to water and very fast drying on normal media. These inks are for outdoor and indoor application. They provide glossy finish even on glossy media.

We offer one of the best pricing in the industry for our customers to maximize their profits achieving at least the same performance and reliability than with the original inks.

### Technical specifications

#### Available Colors

Black	
Cyan	
Magenta	
Yellow	
Light Magenta	
Light Cyan	
Light Black	
Light Light Black	

#### Shelf Life

12 months

#### Specifications

Viscosity: 3-6 cP (25°C)  
 Surface tension: 30-34 dyn/cm

#### Supply

1 and 5 litre bottles. 25 litre bottles under request. We have 220, 440 or 500ml cartridges for this ink.

#### Inks are available in Specific Formulation for the following Printers

Epson® 4000, 4400, 4800, 4880, 7000, 7400, 7600, 7800, 7880, 9000, 9400, 9600, 9800, 9880, 10000, 10600, 11880, Roland® FJ and Cammjet, Mutoh® Falcon, Agfa® Sherpa, Mimaki® JV2 & JV4.

#### Bulk systems

We can supply bulk systems for most of the machines available in the market. For more information, please, contact us indicating the brand and model that you are using.
